THE GOOD

Destination Scorecard

Mont-St.-Michel, France, rates well for historic preservation, poorly for overcrowding and environmental neglect that filled its bay with silt, and moderately well for outlook, as plans move ahead to restore the bay.

Benidorm exemplifies the heavy footprint of package tourism on Spanish islands and coasts. Cheap hotel sprawl prompted low scores for the Canaries, Balearics, Costa Brava, and Costa del Sol.

GETTING UGLY

OUR STRATEGIC PLAN

OUR MISSION: To strategically manage Hawaii tourism in a sustainable manner consistent with economic goals, cultural values, preservation of natural resources, community desires and visitor industry needs.

SUSTAINABLE TOURISM IMPACT**

SUPPORT FOR LOCAL COMMUNITIES

Caring about people is a fundamental aspect of our lodges' commitment to sustainable tourism. All of our lodges are engaged in their communities, providing not only employment, but also opportunities in education, health, and small business development. Sourcing locally goes beyond supplies and jobs to building for the future—from Kasbah Du Toubkal's five-percent guest levy, which supports a community development fund administered by local villagers who decide how best to invest in their community, to Reserva do Ibitipoca's decision to turn over ownership of their lodge to local employees, empowering them to utilize their tourism success as a vehicle for improving livelihoods and reducing poverty.
